"Portraits from the Woods" : the new series of photographs by Norman Reedus, the iconic multi-faceted Artist from The Walking Dead TV show

[Art-Trope](#), New Generation of Artists Agency has been appointed to represent the [Big Bald Gallery](#) to introduce [Norman Reedus](#) during the 19th edition of the [Paris Contemporary Art Show by YIA Art Fair](#) which takes place in the prestigious setting of the Rivoli Building, a few steps away from the [Louvre Museum](#).

Norman Reedus captures the beauty and mystery which live inside each and everyone of us in an indelible way, altogether terrifying, macabre and provoking, alternately dark and yet sublime. In his new never before exhibited series of photographs, Norman Reedus shares portraits of Diane Kruger, Jeffrey Dean Morgan, Hideo Kojima, Lena Dunham and many more to reveal the faces that inhabit his electrifying life. From the set to the real world, Norman Reedus is never without his camera. Like his life on set and in the real world, Reedus's images vacillate between real and unreal.
